The 31st Annual Cumberland Fair Pumpkin and Squash Weigh-Off

This year's Annual Cumberland Fair will host the 31st Annual Maine State Pumpkin and Squash Weigh-In. Each year promises much anticipation and excitement to see who will outgrow last year's massive gourd!

Weigh-off

1. All judges' decisions are final. All judges will be responsible to have a complete knowledge of all rules and how to implement them fairly. It will be necessary to have a current copy of the rules present at each site in public view so anyone may reference them.
2. Growers are to aid and assist the site in running the weigh-off upholding the integrity of the weigh-off site.
3. The Cumberland Farmers Club representative and site coordinator are to be in charge of the gathering of registration, money, weights, measurements, and other information deemed necessary.
4. Site coordinators, growers, and the Cumberland Farmers Club representatives, and site representatives are to work as a team to ensure each site is as accommodating to the growers, site, and Cumberland Farmers Club as possible, upholding the values of fair competition.
5. The Cumberland Farmers Club Giant Pumpkin/Squash weigh-offs are open to anyone wishing to participate without prejudice. All growers must comply with all rules and regulations set forth at the weigh-off site they wish to participate in. Any rules the Cumberland Farmers Club wishes to have must be fair and impartial for all growers.
6. The above-mentioned representatives will also assume responsibility of ensuring the integrity of the fruits and that scales have been calibrated by a recognized weights and measurement business or government prior to the weigh-off.

1. The entry must be grown, cared for from seed to harvest, and exhibited by the grower. In case of an emergency the site coordinator, grower representative, and site representative will make a decision on the validity of the excuse.
2. Number of entries shall be limited to the following in the name of fairness:
Giant Pumpkins – Adult: One entry per family.

4. All specimens must be weighed on a certified scale.
A certified scale is one that has been inspected and certified by a Federal Governmental Agency and must have a current certifica-

tion sticker attached to the scale. Scales that have been certified by a local government agency for commercial purposes are also acceptable scales.

A. If a soft spot is superficial and does not go through to the cavity of the fruit, it will be judged as an official entry.
